Dunelong, Soloward, We all hear these people speaking in our own languages about the wonderful things God has done! -Acts 2:11

Brothers and sisters in Christ,

We have returned from our trip to Botswana and were so blessed by our time there. Here's some of the highlights from our trip:

Carl had a chance to work with the translators on the Shekgalagari New Testament project, Pontsho and Tswarahanang. While he was there, the team was checking 1 Corinthians 3, where Paul talks about the foundation of our faith being laid in Jesus Christ and the work of those who labor for the Gospel. There is a section in verse 12 that proved difficult for the translators to figure out: "Now if anyone builds on the foundation with gold, silver, precious stones, wood, hay, straw—each one's work will become manifest..." The translators had a hard time distinguishing between wood, hay and straw in English. So Carl and Mical (our LBT-coworker) talked with them about the differences and together we tried to figure out the best way to communicate the idea of building upon the foundation laid by Christ. After some discussion, we ended up using words in Shekgalagari that are tied to the building materials they use in their culture to build homes:

bojhwang = grass used to thatch roofs

loragka = reeds used to create walls (left)

Using words like this that are familiar to the people help them to understand what Paul is truly saying here, that our faithful teaching from God's Word is like building on the foundation laid by another, namely Jesus Christ.

The Standard 1 (1st grade) class at Matshwane Primary School, where our kids will be attending. Matshwane means "honey badger" in Setswana!

We got to enjoy a game drive through Moremi Game Reserve while we were visiting. An amazing opportunity to see the wonders of God's creation!

Stalls near the "old mall" in Maun. In addition to shopping in stores, we can purchase goods from these roadside vendors as well.

Read for yourself God's Word in every language!

Now if anyone builds on the foundation with gold, silver, precious stones, wood, hay, straweach one's work will become manifest...

The importance of mother tongue translation

While we were traveling, a flat tire struck just outside of Ghanzi. After improvising a way to support the jack on the sandy soil, we discovered that our spare tire was rusted in place! Thanks to the generosity of some strangers who stopped to help, we were loaned a spare tire to get back to town. The next morning we met our good Samaritan at the mechanic to get ourselves a new tire and return his spare. Thanks to God for their generosity and helpfulness!

The whole experience cemented in our minds the

need for mother tongue translation; Carl knew what was wrong with the spare tire on our car and he was sure the mechanic would understand what was going on as well—it was just a matter of communicating that between the two of us!

The mechanic spoke English somewhat, but there was still the challenge of talking about a complicated technical problem when it isn't your mother tongue. And if talking about a spare tire is challenging, how much more difficult is it to talk about complicated theological terms! Being able to read God's Word in your own language

makes all the difference in the world when it comes to understanding who Jesus is and what he has done for us.
